*Re: TSP*

November 6, 2012

To whom it may concern:

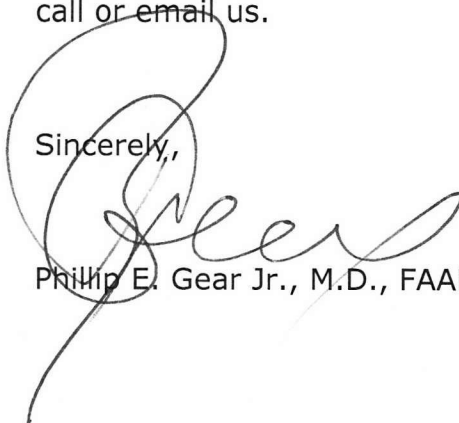

It is with great pleasure that I recommend TSP, Technical Service Professionals, in support of their application for employment. They recently installed computers in our offices and we were impressed with their professionalism and thoughtfulness.

They were and continue to be available at all times when we need troubleshooting or have general questions or concerns. They were considerate in working according to our needs.

I recommend their services without reservation.

Should you require any further information regarding TSP please don't hesitate to call or email us.

Sincerely,

Phillip E. Gear Jr., M.D., FAAP
